

Product Data Sheet

ADD-1501

GENERAL

Dispersing resin used to provide resin minimal pigment concentrates for water based coatings.

SPECIFICATIONS

Composition	: Fatty acid modified polymer
Appearance	: Liquid
Active ingredients	: 100%

APPLICATIONS AND USAGE

ADD-1501 is a dispersing resin tailor made for the production of aqueous base pigment concentrates.

ADD-1501 shows a good pigment wetting and stabilising performance and gives excellent compatibility with water based coating systems.

ADD-1501 is able to crosslink with amino or polyisocyanates resins via its primary hydroxyl groups. Ratio **ADD-1501**/Dispersing agent 3:1 (solid on solid) for formulating pigment concentrates.

STORAGE, SAFETY & HANDLING

ADD-1501 should be stored in a cool dry place. When kept in an original unopened container, it will keep up to 5 years from the date of manufacture. **ADD-1501** should be handled in accordance with good industrial practice. Detailed information can be found in the Safety Data Sheet.
