

# Product Data Sheet

## ADD-2521

### GENERAL

**ADD-2521** is a high performance liquid silicone defoamer for aqueous coating and ink formulations. ADD-2521 has been developed especially for water-based ink, coatings & varnishes used for food packaging applications. **ADD-2521** fulfill the Swiss Ordinance requirements, all ingredients used are listed in Part A of Annex 6.

### SPECIFICATIONS

Composition	: Silicone emulsion in water
Appearance	: Opaque, off-white liquid
Solid content	: 45 %

### APPLICATIONS AND USAGE

Water based inks, varnishes & coatings especially those used for food packaging applications. Architectural paints.

**ADD-2521** can be incorporated prior to processing. If it is added subsequently, good distribution must be insured **0.5 - 1.0%** on total formulation. **ADD-2521** should be mixed thoroughly before use to ensure uniformity in application.

### STORAGE, SAFETY & HANDLING

**ADD-2521** should be stored in a cool dry place. **ADD-2521** should be handled in accordance with good industrial practice. Detailed information can be found in the Safety Data Sheet.
